

EU REACH STATEMENT

SINOMINE SPECIALTY FLUIDS PRODUCTS

Statement Issue Date: 30-Dec-2020

Products covered: All Sinomine Specialty Fluids Products

The Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of December 18, 2006 on the Registration, Evaluation and Authorization of Chemicals (REACH) requires manufacturers and/or importers of chemicals to pre-register and/or register those substances in accordance with the procedures and timelines prescribed within the Regulation.

In line with the above regulation Sinomine Specialty Fluids Confirms that to the best of its knowledge that none of its products contain substances listed on the Candidate List of Substances of Very High Concern in a concentration above 0.1 %.

Sinomine Specialty Fluids is considered a downstream user of all the substances within its products under the above regulations. The main substances within our products are covered by the below Only Representative registrations.

Substance registrations held by ORREANO AS (only representative)

	EINECS #	REGISTRATION DATE
Cesium Formate*	222-492-8	04-May-2016
Potassium Formate	209-677-9	20-Oct-2020

Identified uses covered in Registration Dossiers: Use in Offshore Drilling Operations, Onshore recovery operations.

For all other additives/components of our products Sinomine is considered a Downstream User under REACH. Due diligence is carried out on all Substances/Mixtures that are added to our fluids to ensure REACH compliance.

Safety Data Sheet (SDS) information

All Cesium Formate products have been self-classified in line with the CLP regulations. Please see the product safety data sheets for further information. The most current version of Sinomine's product SDSs can be found on our website <http://www.formatebrines.com>.
