

UK REACH STATEMENT

SINOMINE SPECIALTY FLUIDS PRODUCTS

Statement Issue Date: 01-Feb-2020

Products covered: All Sinomine Specialty Fluids Products

The EU REACH Regulation was brought into UK law on 1 January 2021. This is known as UK REACH. EU REACH registrations held by Sinomine Specialty Fluids as Only representative of our non-EU manufacturers have been Grandfathered into the new UK REACH system

UK registrations held by Sinomine Specialty Fluids (only representative)

	UK Registration #	Date of grandfathering
Cesium Formate*	UK-01-7731118956-5-0001	26-Jan-2021
Potassium Formate	UK-01-8008774379-7-0001	26-Jan-2021

Identified uses covered in Registration Dossiers: Use in Offshore Drilling Operations, Onshore recovery operations.

Sinomine specialty fluids will comply with the full information requirements for our registration tonnage bands, in accordance with Article 10 of UK REACH, by the dates set out in the regulations.

For all other additives/components of our products Sinomine is considered a Downstream User under UK REACH. Due diligence is carried out on all Substances/Mixtures that are added to our fluids to ensure REACH compliance. Downstream User Import Notifications (DUINs) will be made if required for any additives we continue to source from Europe where no other mechanism is in place.

Safety Data Sheet (SDS) information

All Cesium Formate products have been self-classified in line with the CLP regulations. Please see the product safety data sheets for further information. The most current version of Sinomine's product SDSs can be found on our website [http:// www. formatebrines. com](http://www.formatebrines.com).

This information is being provided as of the date hereof.
